

Roof Measurement Reports

Online Roof Reports.
Bottom Line Results.

Today, aerial images can instantly place a world of information at your fingertips. But only Pictometry can provide the unmatched precision and intelligence essential to making informed decisions. As a leader in oblique, geo-referenced aerial images and comprehensive imagery solutions, we bring a new dimension to improving workflows.

Pictometry Roof Measurement Reports

With Pictometry Roof Measurement Reports, you can bid every job confidently, knowing you're backed by the largest imagery database in the world, and the industry's leading aerial measurement expertise.

Eliminate time wasted traveling to and from sites, safety risks of climbing on the roof, delays due to bad weather, and limitations of not having enough field employees to meet demand. In as little as a few hours, you can have the comprehensive and accurate measurements you need to complete more estimates and win more bids.

Whether you're a contractor, insurer or independent adjuster, Pictometry Roof Measurement Reports can help you work smarter faster and safer – improving customer service at every step from day-to-day roof replacement estimates to high-volume CAT event claims.

Simply enter a specific address online or from anywhere via one of our smartphone apps. The result is a professional report in a PDF format that can be printed or emailed to your customers—containing precise calculations as well as high-resolution images, easy-to-read results tables and line drawings.

The result? You can do more, in less time – giving you a competitive edge.

Sample Report

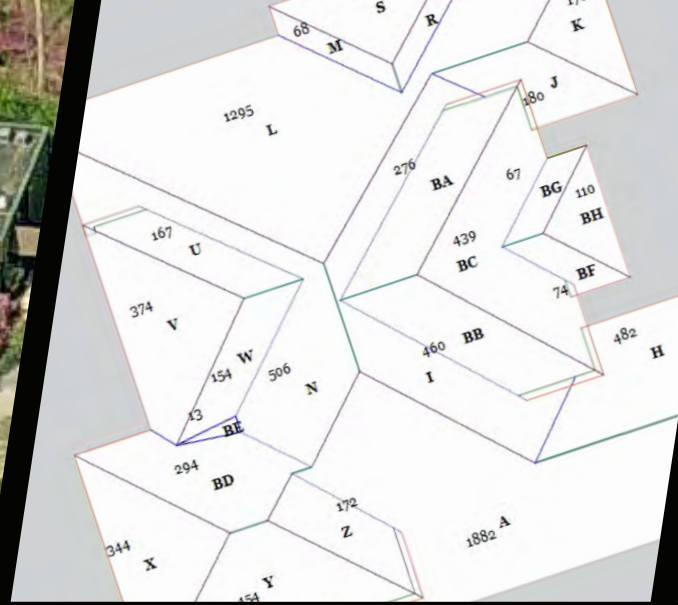

Features & Benefits

- **All of the Answers** – area, pitch value(s), direction and linear lengths for every plane: ridge, valley, eave, rake and step-flashing
- **Industry-Leading Coverage** – assures you get accurate measurements on the properties you need
- **Superior Accuracy** – within 4% of field verified measurements
- **Flexibility of Interactive Reports** – field-verify properties and make measurement adjustments online, while recording all changes on a specific audit page
- **Fast Delivery** – 1-2 business days standard, with same-day delivery available
- **Fully Integrated with Xactimate®** – 100% Sketch compatible drawings, with full-cycle assignment capabilities in XactAnalysis® as well as Xactimate® v27.3 and above
- **Customizable** – Add your company logo and name to make it your own
